United-Guardian Reports Very Strong First Quarter Sales and Earnings

HAUPPAUGE, N.Y., May 12, 2009 (GLOBE NEWSWIRE) -- United-Guardian, Inc. (Nasdaq:UG) today reported that first quarter sales and earnings both increased substantially over the first quarter of 2008. Sales for the period were up 29%, from \$3.0 million in the first quarter of 2008 to \$3.9 million this year, and net income was up 38% from \$839,000 (\$0.17 per share) in 2008 to \$1.16 million (\$0.23 per share) in 2009.

Ken Globus, President of United-Guardian, stated, "Despite the difficult economic times, we are very pleased to report that as a result of increased sales, as well as our success in lowering the cost of one of our key raw materials, we have been able to achieve first quarter sales and earnings substantially higher than last year. Sales and net income were just below the record levels of the first quarter of 2007, but it should be noted that the record sales in 2007 were primarily the result of customers bringing in additional inventory in anticipation of a price increase, which was not the case this year. With the exception of unusually high sales to one of our medical customers, our sales increase this year was not attributable to any extraordinary event, which makes it that much more significant."

Mr. Globus pointed out that while it is difficult in this economic climate to project how the company will fare over the rest of the year, based on strong April sales the company is optimistic that it will weather the current economic turmoil in better shape than many other companies. He also noted that the company continues to work on a number of new products that it hopes will enable it to continue to expand its sales in the coming years.

United-Guardian is a manufacturer of cosmetic ingredients, personal and health care products, pharmaceuticals, and specialty industrial products.
